## WHAT IS TRAP?

A practice or competition event consists of shooting 25 target rounds from the 16-yard station. Up to five athletes (squad) will occupy the stations on a trap field. Station one is assigned the "squad leader".

Five shots are taken at each of the five stations. After the first five shots are completed by the entire squad, each shooter will move to a new station.

The squad leader remains the same throughout the event and shoots first at every station.

## OBJECTIVES

11

## Program Objectives

- To provide a school recognized activity for girls and boys of grades 5 and up through college.
- To provide education and respect around firearm safety while allowing for a competitive individual/squad/team environment that can be carried on throughout high school and beyond
- Safety, Fundamentals and Fun
- Learn Life Skills – lessons about winning, failing, problem solving and becoming a team player and eventually mentoring younger athletes in these skills

12

## Honoring the Game

Competition is clearly part of the GNTC/SCTP, an indispensable part; but it is not the underlying principle. The “win at all costs” philosophy has no place in SCTP. Striving to win while playing by the rules does. **Honoring the game, exhibiting good sportsmanship, and being a responsible team member**, are the bedrock values SCTP strives to instill. It is the DUTY of everyone involved in SCTP- coaches, parents and athletes, to set a good example for SCTP team members. Volunteers are expected to emulate and uphold high moral and ethical standards of personal conduct.

All SCTP activities incorporate two indispensable elements -- **SAFETY AND FUN!** Safety is incorporated into every aspect of **ALL** activities. The learning environment at team practices and at competitive shoots is designed to include the element of **FUN** for all participants. Participants learn the safe and responsible handling and use of firearms. They discover the joy of contributing to a shared team goal and the commitment that goes along with it. During this self-discovery process, team members develop proficiency in a sport that can be shared and enjoyed with family and friends for a lifetime.

## HOW ARE RESULTS CALCULATED?

### GNTC 9 Week League

- Each week, the top 5 scores in each category are compared to the schools. Ties are broke by “reverse run”. Reverse run is the number of targets remaining after the last bird is broke. (ie. If you miss target 23, your RR is 2. The lower the RR, the BETTER! 25=0. (This is specific to our league – typically ties are broke by head-to-head shoots offs (State & Nationals).
- Top athletes in the conference receive All-Conference First Team, Second Team, and Honorable Mention.
- Awards for GNTC Champions for all SCTP categories.
- Award for Top Gun Male and Female

### Team Awards

- An average of the 9 week scores are used to calculate the season average. Unexcused absences result in a zero added to spreadsheet which impacts your average. Excused absences do no impact the average. Ties are broke by total birds, then by RR from Week 9, working backward.
- Awards are presented for Overall High Gun, High Gun for opposite Gender, 1-3 places in all Categories.

ON MY SCHEDULED DAY?**

58

- If you are sick or have a conflict and can't attend practice, it is like any other sport. There are no make-ups; you simply miss practice and miss your score for the league.
- Absences must be excused to remain eligible for letters. To be considered excused, athletes must communicate ahead – to COACH ANDREA - of the missed absence relative to the reason for the miss.
- We do NOT miss practice or SWAP days due to WEATHER (unless lightning at the range OR school announces a cancellation, OR MSA announces a cancellation)- this will be considered UNEXCUSED.
- Attendance – Must have documented evidence of communication (TEXT/EMAIL to COACH ANDREA) BEFORE Missing Practice or Shooting Ahead or a ZERO is recorded.
- Unexcused absences result in loss of Letter eligibility for High School athletes.

## GRADES / ATTENDANCE – ALL ATHLETES

You must meet **ACADEMIC & CONDUCT REQUIREMENTS** as defined by the Athletics Handbook.

Athlete must not miss any competition weeks during the season. Unless approved by coaching staff.

### ACADEMIC PROBATION

One "F" in any grading period will place the student on Academic Probation until the next grading period. Student can practice and play and attend meetings while on probation. If the student is maintaining passing grades at the next grading period, Administration (HS – Athletic Director, MS – School Counselor or Associate Principal) will remove the student from probation.

### ACADEMIC INELIGIBILITY

If the student is still failing one or more courses at the next grading period, he/she is Academically Ineligible. After three weeks the student will pick up a grade check sheet (HS from Athletic Director, MS from School Counselor or Associate Principal). The student will collect current grade information and signatures from his/her teachers and return the form to the administrator from whom they received the form.

If the student is passing all classes, he/she will be reinstated. Administration will notify coach or advisor of status of the student.

If the student is still failing any class at the three week period, he/she will remain Academically Ineligible and will not be allowed to participate in any events or meetings until the next grading period.

A student who was on probation in the previous grading period and is still failing at the time of the next marking period will become academically ineligible.

Two or more "F's" in any grading period places a student on immediate Academic Ineligibility.

## THANK YOU!!!

The backbone of the Scholastic Clay Target Program are the Parents, Adults, and Volunteers who organize and run the program on the local and state level. Any successful youth program will always have a few dedicated passionate adults working in a leadership and guidance role. The amount of time, energy, and financial resources that these dedicated adults contribute to the program is staggering.

However, when you meet the wonderful young athletes that the program produces, you will understand quickly why it is worth it and why they do what they do. The participants in the Scholastic Clay Target Program are the some of the finest young people you would ever want to meet.
